

Unlimited Possibilities for Limited Budgets

The Issue

Lack of an industry specific solution for SMB's that is easy to use, easy to own and quick to deploy

The struggle faced by all Fabless Semiconductor manufacturers is the complexity of tracking time, cost, and inventory in relation to the supply chain. Without a complex set of manual resources, spreadsheets, or multiple applications, most rising Fabless companies either suffer to grasp their costs and lose gross margins, or miss promise dates because of inefficient WIP

Oracle Accelerate Solutions for Fabless

Why do SMB companies choose Oracle?

- Industry-focused solutions to meet your unique requirements
- Complete solutions to meet your needs today and tomorrow
- Easy-to-own solutions with predictable value

Why USJade is the right partner?

- Fabless focused since 2002
- Fixed price solution options
- Rapid solution prototype within 2 weeks
- Repeatable delivery methodologies that fit the Fabless needs

Unlimited Possibilities for Limited Budgets

Oracle and its partners recognize that small and medium businesses demand comprehensive business solutions that are low-cost, low-risk, and provide industry-specific functionality and faster time-to-value.

Oracle Accelerate delivers a complete set of applications, rapid implementation tools, and an extensive partner system, so small and medium businesses can maximize their budgets and achieve real business value quickly. Utilizing a fixed-scope approach, Oracle Accelerate substantially reduces the complexity of more traditional, large-scale implementations.

For customers interested in a rapid, low-risk approach, Oracle Accelerate provides the opportunity to leverage world-class functionality at unprecedented entry-level value. For more information about Oracle or Oracle Accelerates Fabless solution, please visit oracle.com/accelerate

Key features of Fabless Accelerate solution

- **Easy to Use** – The Fabless Accelerate solution is tailored for the Fabless industry to enable unique business processes with industry-relevant data across the core EBS and OSFM modules. The Fabless solution will set up and retrofit the system based on entries specified within the setup questionnaire or template. Additionally, customers can add, modify, and expand the entire footprint as their business scales, yet achieve very fast results by selecting the industry-specific business transactions they need.
- **Complete Industry Solution** – The Fabless Accelerate solution includes industry best practices and supporting business flows for Fabless. These

are models of business transactions representing leading business practices. Business flows enable the customer to relate their business requirements to the Oracle E-Business Suite solution functionality. Key business processes enabled include:

- Track job starts and material movement
- Yield costing and accounting
- Easy split, merge, bump, rework and bonus
- Automate your outside service processing and eliminate complicated manual processes
- **Easy to Implement** – The Fabless Accelerate solution deploys common business transactions in Oracle E-Business Suite, dramatically speeding up the initial stages of an implementation. Implementers can enable customers to begin testing personalized business transactions within hours. This allows implementers to spend more time on additional value-added activities, and ultimately increases the return on investment for the customer.
- Implementation plan and scripts can be used to accelerate the deployment of the customer solution.
- Validation plan and scripts can be used to further validate and certify the customer solution.
- Education and knowledge transfer provides the utilities to test, train, and educate individual business users

USJade Corp and Oracle

USJade and Oracle are aligned to help businesses address these challenges. Together, we have the products, services, and experience to deliver enterprise wide information and IT adaptability, and the track record to prove it.

Having long been recognized as a leading technology innovator, Oracle's integrated suite of applications can
