

ORACLE ACCELERATE

USJade delivers an Oracle Accelerate solution that offers a balance of world-class Oracle Applications, rapid implementation methodologies, and industry best practices needed to achieve high-quality deployments. We understand that many small and medium sized businesses have limited budgets and a need for a comprehensive solution that meets their business and financial objectives. As a Certified Oracle Accelerate Solution Provider, USJade is able to deliver industry-specific functionality with a rapid return-on-investment.

The Challenge

Lack of an industry specific solution for SMB's that is easy to use, easy to own and quick to deploy

Why is USJade the Right Partner?

- Fixed price solution options
- Rapid solution prototype within 2 weeks
- Repeatable delivery methodologies that fit Industry needs

Why do SMB Companies Choose Oracle Accelerate?

- Industry-focused solutions to meet your challenges and requirements
- Complete solutions for short and long term objectives
- Easy-to-own with predictable value

Oracle Accelerate: An Innovative Approach

Oracle asked USJade to provide an Accelerate solution for the Fabless Semiconductor space because of our well known experience in that industry, and today USJade is the exclusive Oracle Accelerate Solution Provider for this industry segment. Since then USJade has expanded to providing other Vertical Industry Accelerate solutions, measuring projects in weeks instead of months.

USJade and Oracle: United for Your Success

USJade and Oracle are aligned to help businesses address challenges and meet their goals. Together we have the products, services and experience to deliver enterprise side information and IT adaptability, and the track record to prove it.

With a rich understanding of Oracle technology, and a results-oriented approach to mission-critical business systems and consulting services, USJade successfully implements Oracle applications to help you:

- Gain strategic advantage and make informed business decisions with immediate access to accurate information in a single database
- Boost productivity, cut costs and increase revenues through operational efficiency, process automation and enterprise integration
- Reduce risk and quickly transform your business for increased time-to-benefit.

As an Oracle Certified Partner and Accelerate Solution Provider, USJade will ensure that our consultants remain at the forefront of Oracle technology and that our customers' receive the highest level of technical expertise and professional consulting services available.

Unlimited Possibilities for Limited Budgets

Oracle and USJade recognize that small and medium businesses demand comprehensive business solutions that are low-cost, low-risk, and provide industry-specific functionality and faster time-to-value.

Oracle Accelerate delivers a complete set of applications and rapid implementation tools so small and medium businesses can maximize their budgets and achieve real business value quickly. Utilizing a fixed-scope approach, Oracle Accelerate substantially reduces the complexity of more traditional, large-scale implementations.

For customers interested in a rapid, low-risk approach, Oracle Accelerate provides the opportunity to leverage world-class functionality at unprecedented entry-level value.

Key features of Accelerate Solution

Easy to Use — The Accelerate solution is tailored for each industry to enable unique business processes with industry-relevant data across

the core E-Business Suite modules. Each Industry solution will set up and retrofit the system based on entries specified within the setup questionnaire or template. Additionally, customers can add, modify, and expand the entire footprint as their business scales, yet achieve very fast results by selecting the industry-specific business transactions they need.

Complete Industry Solution — The Accelerate solution includes industry best practices and supporting business flows. These are modules of business transactions representing leading business practices. Business flows enable the customer to relate their business requirements to the Oracle E-Business Suite solution functionality. Key business processes enabled include:

- Track job starts and material movement
- Yield costing and accounting
- Easy split, merge, bump, rework and bonus
- Automate outside service processing and eliminate complicated manual processes

Easy to Implement — The Accelerate solution deploys common business transactions in Oracle E-Business Suite, dramatically speeding up the initial stages of an implementation. USJade's rapid implementation enables customers to begin testing personalized business transactions within hours. This allows us to spend more time on additional value-added activities, and ultimately increase the return on investment for our customers.

- Implementation plan and scripts can be used to accelerate the deployment of the customer solution
- Validation plan and scripts can be used to further validate and certify the customer solution
- Education and knowledge transfer provides the utilities to test, train, and educate individual business users
